CENTRAL INTELLIGENCE AGENCY

1 Power plant

a Old section of the main building, 50 meters square with two sheet metal smokestacks
b Completed annex, 80x50 meters with four smokestacks
c Foundation walls for a third-section, 60x50 meters
d Switching house, brick structure 50x8x8 meters
e High-tension line to the aluminum plant
f High-tension line to the mechanical plant
g High-tension line to the melting plant
h Coal bunkers
i Parking lot and garage
k Waste water canal 3½ km long and 5 meters wide
l Canal step
m Dam
n Pumping house, stone building, 30x15 meters
o Fresh water canal, 2½ km long and 6 meters wide
p Machine house for coal conveyor plant
q Wooden pumping house, 10x7 meters

2 Aluminum plant

3 Parking lot and garage

4 Melting plant

5 Fire point

6 Store plant

7 Railroad car repair plant

8 Open air iron dump

9 Mechanical plant

10 Parking lot and garage

11 Fuel dump

12 PW Camp No 7525/10

13 Sawmill

CENTRAL INTELLIGENCE AGENCY

Legend to Annex 3

1 Old section of the turbine house, 200x30 meters, steel and brick structure with two smokestacks 18 meters high and 3 meters in diameter

2 First enlargement, 200x80 meters with four boilers (a) and four sheet metal smokestacks 6 meters high and 2 meters in diameter (b) and two turbines (c)

3 Second enlargement, 200x80 meters, steel structure, capable of further expansion

a Foundations for boilers
b Foundations for turbines

4 Inclined coal lifts

5 Craneways through buildings 1 and 2

6 Transformer or switching station, 200x30 meters

7 Transformer or switching station, 200x30 meters

8 Cables leading to the transformers

9 Sixteen transformers, four for each turbine

10 Oil dump with two metal tanks 4 meters high and 6 meters in diameter

11 Underground water canals

12 Coal bins

13 Coal crushing plant

14 Coal unloading point

15 Reserve coal dump

16 Coal bunkers on both sides of the middle track

17 Coal crushing plant

[illegible] Coal crushing machine

[illegible] Underground conveyor belt to boiler house
